

SUGAR SCHEDULE

Will Be the Great Point of Interest in the Senate This Week.

THE VOTE LOOKED FOR ANXIOUSLY.

Will Be a Test of Strength of Sides Regarding the Bill.

STATE BANK ISSUE IN THE HOUSE

The Main Question There for the Week--The Condition of the Treasury Causes Great Anxiety--The Gold Reserve Again Down to Eighty Millions and Going Lower--No Signs of Improvement in the Future--The Deficit for the Year Will Be Nearly Seventy-five Millions.

WASHINGTON, D. C., May 27.--The main interest in the proceedings in the senate this week centers in the prospective contest over the sugar schedule which will probably be reached on Tuesday. The consideration of the metal schedule having been concluded Saturday, the wood schedule is the only one now standing before sugar. Leaders on both sides of the senate chamber believe it will be possible to dispose of the entire wood schedule on Monday.

It is also possible that the special committee which is investigating the alleged operations of the sugar trust in connection with legislation may claim the attention of the senate for a portion of the week. It is quite probable that the committee will report the refusal of the newspaper witnesses to testify in response to certain questions put by the committee, and ask for instructions from the senate. In the event that this report should be made on Monday, as is probable, the report would live over a day and would probably lead to some debate.

There is also a possibility of adjourning over for Decoration Day. The Republican opponents of the bill will probably suggest this adjournment, but the Democrats have not yet decided whether they will agree to the proposition.

THE SUGAR SCHEDULE. Senator Jones expressed the opinion to-day that the sugar schedule could be disposed of in two days, but their opponents do not think it can be gotten out of the way in so short a time. Senators on both sides of the chamber are looking forward to the vote on sugar with an interest that amounts almost to anxiety. It is very evident that the result of the contest over this schedule will be regarded in a large measure as a test of strength of the respective sides on the bill as a whole.

The Republican leaders say, however, that the bill is one which from its nature requires to be discussed by schedules and that it would be difficult for this reason to agree upon a day for vote and be sure that the consideration of the schedules would be completed by the time agreed upon. They say, however, that they will be willing to confer with the Democrats upon this proposition after the vote on sugar shall have been taken.

The Republicans probably will make their strongest effort in connection with the sugar schedule to have the bounty of the present law retained. Senator Walsh will make his maiden speech in the senate, which will be on the tariff to-morrow at 11 o'clock. Senator Pettigrew will also speak at some length on Monday.

THE HOUSE. The coming week in the house will be much broken up by special orders and adjournment over Decoration Day. The state bank debate will have the right of way, but it can get but three days in the week at the best. Monday is district of Columbia day and the state bank men have consented not to intrude on that day. The bank bill will be taken up again on Tuesday when Representative Johnson will make the opening Republican speech in opposition to state banks and Representative Cox will open for unconditional repeal of the state bank tax. Representative Warner, of New York; Walker, of Massachusetts; Raynor, of Maryland; and Harter, of Ohio, are also down for speeches, some of which will go over on Decoration Day. The bank question will get another day on Thursday, to be disposed of, however, on Friday by private bills. The hopes of the state bank men are to close the debate and, if possible, vote a vote before the week closes. The anti-option bill and the Indian appropriation bill are pressing for consideration, and one or the other of these will follow the state bank bill.

ANXIETY AT THE TREASURY.

The present depleted condition of the treasury and the discouraging outlook for the future are a source of considerable anxiety to the officials of the treasury department. Already the gold reserve which has been brought up by the last bond issue to \$107,333,512 has been reduced by exportations since March 10, to less than \$90,000,000 with no indications that the foreign demand will cease until it reached a much lower point. With the exception of the gold reserve and counting every available dollar in the vaults in the treasury, the government to-day has less than \$30,000,000 with which to meet its obligations. Nor does the future show any signs of encouragement. On the contrary, the probable deficit of \$4,000,000 for the month of May is likely to be increased by \$16,000,000 during the next succeeding months. The closest calculation that can now be made, shows that the deficit for the fiscal year ending June 30, will be approximately \$74,000,000. Close estimates place the receipts for May at \$22,500,000, and the disbursements at \$28,500,000. For June the receipts are likely to be about \$23,000,000, and the expenditures \$30,000,000, making the total receipts for the fiscal year \$291,500,000, and the disbursements \$365,500,000.

While it is confidently believed that the receipts for July will increase somewhat, yet it is much more certain that the disbursements will increase. A conservative estimate of the deficit for July is \$12,000,000, this increase being

accounted for by the payment of many obligations, including about \$7,500,000 in interest that mature at the beginning of the fiscal year. During June the pension payments will amount to about \$10,500,000, and during July to nearly \$11,750,000. The exact amount of receipts and expenditures for the present month and the fiscal year to date are as follows: Receipts for month to date \$20,429,883; receipts for fiscal year to date \$238,239,037. Expenditures for month to date \$26,271,800; expenditures for fiscal year to date \$337,523,100.

OPEN SESSIONS

Of the Deliberation Investigation Will Be Dominated by Walker's Attorney. WASHINGTON, D. C., May 27.--Ex-Spender Sulzer, of the New York state assembly, arrived in this city to-night. To-morrow he will appear before the senate bribery investigation as attorney for Mr. Harry Walker, of the St. Louis Post Dispatch, who is now under examination by the committee. Mr. Sulzer was seen this evening but declined to talk concerning the matter which he will lay before the committee. "I trust, however," he said, "that the session will be an open one and all the newspaper men who desire may be present. The first thing I shall do will be to demand that the session may be public. The doors will be open or I will know the reason why."

THREE KILLED, ONE INJURED

In the Wreck on the Baltimore & Ohio Road Near Meyersdale, Pa., Express Cars Entirely Consumed by Fire.

PITTSBURGH, Pa., May 27.--To-day as the Baltimore & Ohio express No. 9, west-bound, reached the sharp curve at Pine Grove station, nine miles this side of Meyersdale, a terrible wreck occurred, in which two men were killed and one was so severely injured that he will probably die. The train was twenty-five minutes late at Sand Patch and the engineer in order to make up lost time, was running his engine at her limit, probably at a speed of forty or forty-five miles an hour.

A huge rock weighing about fifty tons had been loosened from above the road by the heavy rains of the past week and fell square across the tracks. Owing to the sharp curve at the scene of the accident the engineer did not see the obstruction until within a few feet of it, consequently the engine crashed into it with a terrific force, completely demolishing the engine and tender and wrecking three baggage cars.

The engineer, William Nicholson, aged 41, of Glenwood, Pa., was so badly crushed and burned that all of his remains to be found were gathered up and placed in a bucket. William L. Reinhardt, fireman, aged 25, of Glenwood, Pa., was burned and scalded to death. O. E. Stahl, express messenger, of Baltimore, was badly scalded and sustained severe internal injuries, will probably die.

Fortunately no passengers were seriously injured, although many were bruised and all received a thorough shaking up.

The three express cars caught fire and were entirely consumed--the passengers say within fifteen minutes. Three hundred and fifty feet of track were torn up, and traffic was delayed for six or seven hours. The loss to the railroad and express companies is not as yet known, but will be considerable.

MINES FLOODED

In the Anthracite Region--Disasters Result of the Freshet.

PHILADELPHIA, Pa., May 27.--The anthracite coal trade, like the bituminous trade, is at a standstill, though from vastly different causes. The floods throughout the anthracite region have flooded many of the mines, forcing a suspension of work until the flooded mines can be relieved of the surplus water. The result of the enforced stoppage, together with the curtailed production of the anthracite mining companies for several months past, has produced a scarcity of hard coal. Especially is this the case with the Reading Company, which has been compelled within the past few days to decline orders. Out of some forty collieries operated by the Reading, all but twelve are at present in a condition to prevent the mining of coal, but the company's officials expect in a few days to have the majority of them pumped out and in operation. Such of the mines as are in workable condition are being pushed to their fullest extent, orders having been issued to work all of their ten hours a day and every day in the week.

In the Lehigh region there has also been some enforced stoppage from mining, principally in the Hazleton district, where five of the twelve collieries are idle. In the Wilkesbarre region the mines were not affected by the waters, and are running as usual. A number of individual operators were also drowned out and forced to a temporary stoppage.

RUSSIAN FORGERS

Of a Will Sentenced to Siberia--One of Them a Nobleman.

ST. PETERSBURG, May 27.--A sensational will case that has been before the courts here ended to-day in the conviction, on a charge of forgery, of Count Sollogoub and four other persons, including two lawyers. Some time ago a wealthy man named Vladimir Gribanow died. Shortly afterward a document purporting to be his will was offered for probate. According to the terms of this will the sum of 1,000,000 roubles was bequeathed jointly to Madame Gribanow and Count Sollogoub, who is a grandson of the celebrated Russian writer of that name. A suspicion was raised that the will was not genuine and the matter was carried to court with the result above stated. All five of the convicted persons were sentenced to banishment to Siberia. Count Sollogoub's young son, who was a military officer, shot himself dead with a revolver when he heard the sentence imposed on his father.

THE NORDEN EXPLOSION.

Five of the Crew Killed and Several Wounded--The Ship Destroyed.

MADRID, May 27.--Further details have been received of the explosion that occurred yesterday on the Norwegian steamer Norden at Gijon, on the Bay of Biscay. The steamer was taking coal on board when one of her boilers exploded with terrific force. Her decks were shattered, and the boats and deck fittings were blown to splinters. Some of the debris was carried across the quay at which the vessel was lying and a piece of timber struck a dock laborer, killing him instantly. Two steamers laden with sulphuric acid and gunpowder were lying close to the Norden. Part of the masts of the latter were carried away by the force of the explosion and in falling struck the other two steamers, inflicting great damage on them. Five of the crew of the Norden were killed and several others were scalded or injured by the flying debris.

THE PARIS COMMUNE.

Anniversary Celebrations Held Yesterday. No Disorder Occurred.

PARIS, May 27.--Several meetings were held to-day to celebrate the establishment of the commune. A number of Socialist members of the chamber of deputies were present. Violent speeches were made, but there was no disorder. The programme of the Socialists included a visit to the cemetery of Pere la Chaise, where many of those who lost their lives in the troublous days of the commune are buried. The police, however, would allow none but those carrying wreaths to enter the cemetery and the making of speeches was forbidden. A large crowd stood outside the gates of the burial place, but no disorderly demonstrations were made. Rain was falling and this put a damper on the enthusiasm of the would-be participants in the demonstration.

THE FRENCH CRISIS.

Dupuy Having a Hard Time Forming a Cabinet--One More Effort to be Made.

PARIS, May 27.--M. Dupuy, who is trying to form a cabinet, continued his conferences this afternoon with the men whom he desires to accept office in his proposed ministry. The chief difficulty that M. Dupuy is meeting with relates to the portfolios of foreign affairs and finance. M. Burdeau and Boulanger have both refused to take office. President Carnot this evening had a long interview with M. Burdeau, but the latter persisted in refusal to accept the finance portfolio. To-morrow President Carnot will have a conference with M. Boulanger, and if he still refuses to take the office proffered him M. Dupuy will abandon the task of forming a ministry.

COLORADO SPRINGS DELEGATION

Arrives at the Scene of Trouble and Induces the Strikers to Consent to a Plan for the Settlement and the Avoidance of Further Bloodshed. President Slocum, of Colorado College, the Peacemaker--Governor Waite Recalls His Order for the Troops to Go to Cripple Creek.

CRIPPLE CREEK, COLO., May 27.--The delegation from Colorado Springs consisting of Dr. Slocum, president of Colorado college; Mr. C. G. Collins, president of the Trades Assembly; Mr. L. W. Bates, president, and Charles Geister, secretary of the Capenters' Union, and Rev. E. Evans Carrington, all of Colorado Springs, came to the city this morning with the hope that something might be done to settle the controversy that has arisen in connection with the strike. The gentlemen reached the city at 9 o'clock and soon after left for Altman for conference with the miners. They were very courteously received by President Caldwell and other representatives of the union. A conference was held, at which it was stated that the delegation came entirely of his own responsibility and had come in the interest of peace and arbitration.

After a very satisfactory conference all the miners in the vicinity congregated about the building in which the meeting was held and Dr. Slocum addressed them, stating the grounds upon which arbitration could be brought. He was cordially received by the crowd and loudly applauded. He was followed by Mr. Carrington, who further explained the reasons which had brought the delegation, and then Mr. Collins addressed the audience.

A meeting of the miners' union has been called for to-morrow evening and there is every reason for thinking that a committee will be appointed which will attempt to arbitrate and settle the whole trouble. In the meantime there is to be a complete cessation of hostilities on all sides. Prisoners are to be exchanged and it is most earnestly hoped that this unfortunate affair will be settled and a new era of good feeling and prosperity brought to the camp.

Supt. McDonald and two of his men are still held as hostages at the fort on Bull Hill. An attempt was made this afternoon by Deputy Sheriff Len Jackson, Mayor Lindsay and Secretary Frank Wolfe, of the miners' union, to try and make arrangements with the authorities at Colorado Springs to have the men at that place released. The miners promised that if this was done, they would at once have Superintendent McDonald and his men safely conducted to their homes. It has been impossible for the parties interested to come to any definite understanding but Mayor Lindsay is in hopes that the matter may be arranged before morning.

The idea of arbitration was suggested yesterday by President Slocum, of the Colorado College, to a number of mining men of Colorado Springs. They were loath to listen to him for a time, but after working with them the entire day and up to midnight they finally consented that he might make an effort to end the strike. If the miners to-morrow accept the proposition they will appoint two men, the mine owners two and the four to select a fifth. In advance it has been stated that eight hours shall constitute a day's work and all that will have to be arbitrated is what shall be received therefor. An awful strain has been lifted from the community, and a majority of the people feel convinced that the trouble is ended.

Town Marshal Baron received word from the strikers to-night that if the prisoners held by the deputies were not released Sam McDonald, manager of the Strong and Anna Lee mines, would be killed, together with the other prisoners held by them.

Troops Ordered Off.

DENVER, COLO., May 27.--At 5 o'clock this morning Governor Waite recalled his order for the troops to start to Cripple Creek. The Sixth Ward has a Notable Meeting. Union District.

The Republicans of the Sixth ward turned out in full force Saturday night to reorganize the old Sixth ward Republican club. The meeting was held at 2024 Chapline street and was called to order by President Michael Grogan, who stated the objects of the meeting. He then appointed J. G. Leasure secretary pro tem.

Mr. J. H. Burt was elected president of the club and Michael Grogan and Frank Blon vice presidents. J. G. Leasure was made secretary and Geo. Devinney treasurer.

Mr. Burt, who had been looking around for quarters for the club, made his report. He said he had raised \$70 for the purpose of renting quarters and they would need \$30 more in order to rent the room in which the meeting was held. On a vote it was decided to establish permanent quarters in the building. Monday night was chosen as the regular meeting night.

The following delegates and alternates were then elected to go to the Fairmont convention: Henry Meyers, George Devinney, Frank Blon, D. W. Martin, Henry Kearns, J. G. Leasure, Thomas Simpson, C. Lenhart, A. D. Howe and Dentley Jones.

Seats for the big Elks' outing will be placed on sale on next Wednesday morning at C. A. House's music store. All who desire good seats should go early, as a big rush is anticipated. Only fifteen hundred seats will be reserved at the sale for both nights. The balance will be sold at the box office of the new casino to those who come early.

Both plays, "The Woman Hater" and "Lend Me Your Wife," easily take rank with the best comedies on the American stage.

Each comedy will be produced in the highest style of stage art, with new scenery and special stage settings. There is not a dull moment in either play from the minute Mr. Roland Reed makes his appearance on the stage. Both plays afford him ample opportunities for the display of his ability as a first class comedian, humor bubbling out in almost every line. Mr. Reed's support is excellent. Miss Isadore Rush, an especially charming and graceful actress, fills the leading roles. The original cast will appear in both plays.

The new scenery arrived yesterday and will be put up under the direction of Mr. Will Richardson, stage manager of the Opera House, within the next few days.

The stage will be in readiness by the last of the week. All portions of the structure will be pushed to completion with all possible speed, the work being carried on day and night.

PRESENCE OF THE STATE TROOPS

Keeps Down the Fighting Spirit in the Leaders, Who Will Use Every Effort to Keep the Foreigners From Committing Depredations While the Soldiers Are on Duty--Ugly Reports From Mine--The Sheriff of Woodford County Telegraphs for Troops--Effect of McBride's Visit.

LA SALLE, ILL., May 27.--Owing to information received by Sheriff Taylor this morning that loud reports heard last night were signals for the massing of the foreign miners at Spring Valley to be in readiness to march on La Salle to-day, there was considerable excitement at Camp Mattheussen and visitors were carefully scrutinized, but to-night all is quiet. It is known, however, that the comrades of the men arrested by the troops yesterday are very angry and have been organizing an armed mob to avenge the wrongs which they claim are being done to their fellow miners by their detention by the sheriff.

Col. Bennett and his command are well prepared for trouble, and as an extra precaution, the pickets were doubled at 7 o'clock this evening. The men under arrest have many sympathizers in La Salle and Pana, who will no doubt take part in any concerted action on the prospect of securing their release. So far as this city is concerned, it is the universal opinion that the leaders will use every precaution to keep the foreigners from committing depredations, so long as the militia is here. Six of the prisoners taken by the troops at the instance of the sheriff, and who were carrying concealed weapons at the time they captured the train at Ladd were sent out of camp this morning, and lodged in the county jail at Ottawa. They will be given a preliminary examination to-morrow.

Word was received from Mineok that riotous miners had taken possession of the town and stopped trains on the Illinois Central railroad, which the railway officials were obliged to abandon, also that the sheriff of Woodford county had telegraphed to Governor Altgeld for troops, being unable to control the mob. It is thought by the strike leaders as well as the mine owners here that the meeting of Mr. McBride with the Illinois coal operator at Springfield will have good results, and that a settlement of the strike would settle the rioting.

As the governor had shipped the last of the rifles in the state armory to Elmwood this morning on a requisition from the mayor of that place, he ordered two companies of the Fourth regiment to start for Mineok at once to aid the sheriff. All is quiet at Mineok to-night, but the miners refuse to allow coal trains to move.

The mayor of Elmwood wired that the town had been visited twice by mobs of strikers.

Meeting in the Interest of Peace.
